

The screenshot shows a web-based C compiler interface. At the top, there's a toolbar with icons for Run, Debug, Stop, Share, Save, and Beautify. To the right of the toolbar, it says "Language C". Below the toolbar, the file name "main.c" is shown. The code editor contains the following C code:

```

16     return 0;           char32_t keyword

Below the code editor is a terminal window showing the output of the program. The output is:

Press ENTER to exit console.
```

On the right side of the terminal window, there are two buttons: "Activate Win" and "Go to PC setting".
